

The Energy Connector

Issue #50

Notice to members! Keep your account in good standing!

A special resolution was met with unanimous membership approval at The Energy CU's AGM held on Friday, April 4th 2014. Previously, the Board of Directors determined that it is in the interests of the Credit Union to raise additional capital by increasing the minimum required shareholding. Basically, what this means to you as a member is that the Credit Union's Capital Shares have increased. Members will have two deadlines to meet in order to keep their CU account in good standing. **By April 4, 2015 all current members will need to increase their Capital Shares to a total of at least \$50**, and by **April 4, 2016** current members will need to increase their Capital Shares to a total of \$100. All new members who join our credit union after April 4, 2014 will be required to have a total of twenty (20) five-dollar (\$5) Capital Shares totaling \$100. To keep your account in good standing please make sure your shares are increased by the deadline! You don't want to miss out! Your share investment will provide us with additional capital in order to continue our business activities for the future. With more members doing business with us we can continue to provide you with innovative products, services and added convenience.

Call our offices for more information 416-238-5606 or to have your shares increased.
